

AMT Bridle™

Nasal Tube Retaining System Family

Reduce Pullouts + Decrease Cost

- Bridling is more effective than tape¹.
- Bridling reduced additional KUB x-rays/radiographs by 99.3%².

Improve Nutrition + Recovery

- Bridled patients have seen >23 uninterrupted feeding days³.
- Consistent nutrition delivery can minimize length-of-stay⁴.

Patient Safety + Comfort

- Pre-Attached Clip for increased safety and improved handling.
- Monofilament Tubing is easy to clean and comfortable for patients.

Pro Range Clips

- Clips accommodate several nasal tube sizes.

5F-6F

8F-10F

12F-14F

16F-18F

Innovating. Educating. Changing Lives.™

AMT Offers the Largest Range of Pediatric + Adult Sizes⁵

Bridle Pro® and Pro Range Systems

An AMT Exclusive. The New Standard of Care.

Bridle Pro® Range clips accommodate several nasal tube sizes which means fewer products to keep in stock.

Bridle Pro® Range Clips:

AMT Bridle™ & Bridle Pro® Clips:

Large Bore Nasal Tube Securement:

14F-18F can secure Salem Sump® tubes.

AMT Bridle™ Safe + Secure

The AMT Bridle™ features a superior clip: it is textured for an easier grip, it is pre-attached for improved handling, and it has rounded edges for less irritation.

AMT Bridle™ has a smaller probe than alternative brands for a more comfortable placement.

AMT has the ONLY Bridle systems FDA cleared for pediatric patients.
