Innovating. Educating. Changing Lives.™

Same French Size, Larger Lumens

DESIGNED TO REDUCE CLOGGING

An Advantage in Enteral Nutrition

Anti-Kink. Exclusive AMT Balloon. Glow Green™ Technology.

Reduce Leaks, Superior Comfort

- 1 Anti-Reflux Valve**
Prevents backflow from the G + J ports²
 - 2 Tapered Transition**
For a more secure fit
 - 3 Exclusive AMT Balloon**
Apple-shaped, expands horizontally
Creates a superior gastric seal²
- Soft + Flexible**
Medical grade silicone is gentle to the skin and easy to clean around
- Four Point Stabilization**
Reduces motion that can cause granulation tissue

Safety + Innovation

- 4 Guidewire Adapter**
For ease of placement
- 5 Mutually Exclusive G+J**
Lowers risk of misconnecting feed and extension sets
- 6 Glow Green™ J-Port**
Easier nighttime feeds
Feed the Green!
- 7 Dual Safety Straps**
Allow independent access to the G and/or J port
- 8 Anti-Kink Technology**
16F and 18F sizes offer spring reinforcement to maintain flow

SUCCESS STORIES

My G-JET® Lasts Longer

The length of time between routine exchanges has significantly increased since I switched to the G-JET®. Interventional radiology is now replacing my G-JET® every 4-5 months... because it can last!

Amanda's G-JET®
AppliedMedical.net/Amandas-G-JET

Mutually Exclusive Ports Leading the Way in Patient Safety

Accidentally feeding the stomach instead of the jejunum can be dangerous! Mutually exclusive **GASTRIC** and **JEJUNAL** ports are designed to reduce the risk of misconnections. Different feed/extension sets are required for each port, so it is imperative to maintain adequate stock of both sets. Always remember to **Feed the Green!**
