

AMT Story Starter

On behalf of Applied Medical Technology, Inc. (AMT) we would like to extend our gratitude to you and your family for sharing your personal testimonials with us regarding your experience with our medical devices.

Please feel free to write the story however you like. Some suggestions of things to include are:

- What is the underlying medical reason(s) an enteral feeding tube was needed?
- What was your medical journey like leading up to the device?
- Which AMT Enteral Feeding Device are you using and why was it chosen?
- What differences have you noticed using this particular feeding tube?
- Were you previously using another type or brand of feeding tube? If so, which type and brand?
- Fun facts! What does your child enjoy to do and how has our device helped?
- Share some background information; let us know all about you!

Lastly, please send any pictures that you would like us to use. Some ideas are fun pictures with your kiddos playing, before/after product pictures, family photos, etc. If possible, we would love to get a couple photos that visibly show the product.

Thank you for participating!

NOTE: By participating you will need to sign a release form stating that we, AMT, are allowed to share all info/photos that have been sent to AMT. This information may be posted on our company website, social media platforms, or other marketing material.
