

IntelAir®

Nasopharyngeal Respiratory Management System

NEW

SAFE

Anatomically shaped to reduce insertion trauma. Biocompatible silicone promotes patient comfort and oxygen safety.

SECURE

Designed to avoid tube migration. Anchoring systems keep the airway and divided cannula secured, providing consistency in oxygenation and capnography monitoring.

INTELLIGENT

Integrates airway management, oxygen delivery, and capnography sampling into one streamlined device with a minimal footprint.

A Superior Airway Management System!

Innovating. Educating. Changing Lives.™

IntelAir®

Safe. Secure. Intelligent.®

The IntelAir® is a single-use nasal airway support system designed to ensure airway securement, avoid cannula migration, and maintain a clear airway.

Securement Clip

The O₂/CO₂ tubes are secured to the nasopharyngeal airway, maintaining their position for the procedure's duration.

Airway Support

The nasopharyngeal tube supports the soft palate to maintain a patent airway.

Capnography

The CO₂ sampling line is independently adjustable from the O₂ supply line to avoid signal washout.

Gentle Skin Adhesive

Tape securement maintains the position of the NPA over the course of the procedure. The skin adhesive is repositionable and gentle on skin.

Single Naris Access

Maintains open access to the nasal and oral cavity.

Oxygen In

The O₂ supply line delivers oxygen deep to the oropharynx.

IntelAir® | Order Information

Order #	Securement	Length	Qty/Box
WITHOUT TUBING			
IA-20-2611-05	Tape Secured	26F x 11 cm	5
IA-20-2612-05	Tape Secured	26F x 12 cm	5
IA-20-2613-05	Tape Secured	26F x 13 cm	5
IA-20-2614-05	Tape Secured	26F x 14 cm	5
WITH TUBING			
IA-21-2611-05	Tape Secured	26F x 11 cm	5
IA-21-2612-05	Tape Secured	26F x 12 cm	5
IA-21-2613-05	Tape Secured	26F x 13 cm	5
IA-21-2614-05	Tape Secured	26F x 14 cm	5
